DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,230,205 to Garrity et al.

As per claims 1, 3 and 6, Garrity et al. disclose a user authentication proxy unit between a user terminal and a web server for performing user authentication operations required for the web site, said user terminal accessing the web server over the Internet (col. 3, lines 51-56 and col. 4, lines 33-53).

Allowable Subject Matter

Claims 4, 5, 8-10 are allowed.

Claims 2, 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent No. 6,198,824 to Shambroom.

U.S. Patent No. 6,256,739 to Skopp et al.
